SUMMARY

Experienced React Native and React.js developer with 9 years of experience creating high-quality web and mobile applications. I possess a strong understanding of the React ecosystem, including Redux, Saga, MobX, and other related tools. Skilled in developing complex UIs with clean, maintainable code, and experienced in integrating APIs and third-party libraries. Strong knowledge of Redux, Saga, TypeScript, JavaScript, HTML, CSS, and related web technologies, and ability to work effectively in a collaborative team environment. Proven ability to deliver projects on time and within budget, with a keen eye for detail and a passion for staying up-to-date with the latest industry trends and best practices.

SKILLS

Languages	React Native, TypeScript, React.js, JavaScript (ES6+), HTML5, CSS3
State Management	Redux, Redux Toolkit, MobX, Saga, Zustand, Context API, GraphQL
UI Libraries	Expo, Ignite, Material UI, Bootstrap, Native-base, Tailwind CSS, AG Grid
Testing & Debugging	Jest, Xcode, Android Studio
CI/CD	Git, Jenkins, Fastlane, Azure
Development Tools	VS Code, Jira, Trello, Confluence, Slack, Zeplin

WORK EXPERIENCE

BMO, Toronto, CA JUL 2025 – Current
Mobile Developer

- Worked on the BMO Business Mobile Application using React Native, Redux, and Redux Saga.
- Implemented new features, including the ability to generate void cheques for business users.
- Identified and resolved security and performance-related issues, improving overall application stability and efficiency.
- Led the upgrade of the React Native version, along with associated libraries and SDKs, ensuring compatibility, improved performance, and adherence to best practices.

Virtusa, Toronto, CA JUL 2025 – Current
Lead Software Engineer

- Working with clients of Virtusa to develop mobile applications using React-native and related technologies.

myBlueprint, Toronto, CA JUL 2023 – JUN 2025
Mobile Developer

- Work on EdTech mobile application called SpacesEDU using React Native technology along with Redux, Saga and TypeScript languages.
- Collaborated with a small team to plan and deliver new features for ios and android mobile applications.
- Wrote and maintained test cases using Jest to ensure code quality and reliability.
- Fixed various development and production-level bugs to improve app stability and performance.
- Acted as interim team lead, managing task planning and distribution among team members.
- Conducted and facilitated daily stand-ups and retrospective meetings to streamline team processes.
- Managed iOS and Android app production deployments using App Center, ensuring smooth and timely releases.

Swan Softweb Solutions, Gujarat, IN

APR 2022 – JUN 2023

Senior Software Engineer

- Led the development of scalable and high-performance mobile applications using React & React Native, enhancing user experience across iOS and Android platforms.
- Implement and use expo framework on various applications along with other libraries and services like deep linking and push notifications.
- Mentored junior developers, guiding React Native development, code reviews, and debugging techniques.
- Collaborated with cross-functional teams, including UX/UI designers and backend engineers, to deliver seamless and integrated user experiences.
- Optimized app performance by implementing efficient state management strategies, including Redux and Context API.

Maybank, Malaysia

APR 2020 – MAR 2022

Front End Developer

- Developed the M2UBiz mobile application utilizing React Native, successfully delivering a top-notch product with seamless performance and excellent user experience.
- As a member of the development team, played an integral role in the successful creation and implementation of the Maybank2U web application using React.js.
- Demonstrated proficiency in building a user-friendly interface, ensuring the web application was both dynamic and responsive, and prioritizing a high level of usability for end-users.
- Thoroughly reviewed project specifications and utilized advanced technical knowledge to design innovative and highly effective solutions that met or surpassed the performance expectations, resulting in the successful completion of the project.

Simform Solutions, Gujarat, IN

JAN 2016 – MAR 2020

Software Engineer

- Developed 3+ fully functional mobile applications using React-native.
- Developed 2 fully functional web applications using React.js.
- Worked on the innovation team, to design and develop new features for products including user onboarding, menu setup, item tracking, Item substitution, user management, and support request.
- Developed end-to-end application using expo framework along with ignite and native-base.
- Integrated payment gateway using Stripe and was involved in multilingual mobile and website development.
- Worked on VR application in react-native using redux-saga storage, and in dating application using GraphQL.
- Coordinating with team members for system design, integration, application maintenance, etc.
- Cooperating with other teams across the organization for efficient work progress.
- Following the best practices for project support and documentation as set by peers.

EDUCATION

AUG 2013 – MAY 2016 Master of Computer Applications at **Nirma University**

JUL 2010 – MAY 2013 Bachelor of Computer Applications at **Sardar Patel University**
